# GCA Energy Limited

## Your Trusted Partner in the Oil & Gas Sector

Welcome to GCA Energy Limited, your premier destination for unparalleled support services in the Nigerian Oil & Gas sub-sector. Founded in 1987, initially as Greg Continental Agency Limited, **we've** evolved beyond our humble beginnings to stand today as a colossus in the industry, providing cutting-edge solutions to our various clients.

### Who We Are

GCA Energy Limited is a Nigerian Oil and Gas servicing company that provides Engineering, Procurement, Installation and Commissioning (EPIC), Project Management, Automation, Fiscal Metering, Process solutions, Asset Integrity Management, Maintenance Services, and Procurements. With close to 4 decades of experience, our vision is to be the dominant onshore / offshore equipment and services provider in Nigeria.

Over the years, we have built a reputation as a foremost reliable service company in Nigeria and have set ourselves apart from the competition by partnering with renowned Original Equipment Manufacturers and Engineering solution providers, investing in competent local human resources, innovative technology, equipment, facilities and our strong financial standing.

As an ISO 9001:2015 certified company, we offer our customers best in class services as we guarantee traceability and authenticity of every equipment and service we supply.

The **company's** quality management system has enabled us to achieve and maintain excellence in all our processes for regulatory compliance, sustained growth, satisfaction of stakeholders including clients, employees and host communities.

Our commitment to local content development has driven us to be intentional in our investment in our people and host

communities.

We have achieved significant strides in local capacity development, job creation, health, safety, and sustainable development.

We have delivered several EPIC Projects, Technical Services and Procurement in Nigeria, establishing ourselves as a leader in the service industry.

Today, driven by innovation and sustainability, we have reorganized the company and restructured our services into three broad areas - Projects (EPIC), Technical Services, and Procurement with details in the section below.

Our commitment to local content development and delivering world class services at lower cost has led us to:

- recruit competent industry professionals at different levels of our organization.
- Locally and internationally train and certify our personnel.
- Invest in equipment and two operational bases in Port-Harcourt.

Our facilities list ranges from 2 Operational & Project bases in Port Harcourt, hosting our engineers, technicians, Instruments Calibration Laboratory, a Flow Measurements Training Laboratory as well as a Workshop & Warehouse.

Our equipment list includes multiple sets of Small Volume Provers, Various Master meters, Deep Tank Cleaning Equipment & Pumps, High Pressure Jetting Systems, and more.

### Our Evolution

Starting by representing Siemens Building Technologies

UK Limited, **we've** grown in leaps and bounds, driven by an unwavering resolve to be at the forefront of service delivery. Our journey, fuelled by strategic alliances and a keen insight into the **industry's** demands, has transformed us into a powerhouse headquartered in Victoria Island, Lagos, with a dynamic presence across Nigeria.

### Our Vision

To be the dominant onshore/offshore equipment and services provider in Nigeria.

### Our Mission

To render cutting-edge support services in the Nigerian Oil and Gas sub-sector as a wholly indigenous company backed up by renowned international expertise.

### Leadership That Inspires

Under the visionary leadership of Mr. Greg Uanseru, our President, **we've cultivated a corporate** culture that thrives on excellence, innovation, and integrity. Our hierarchical yet flexible organisational structure ensures a seamless flow of communication and the realisation of our commitment to customer satisfaction.

A competent team of professionals across various departments, including legal, technical, administration, HR, procurement, sales, and business development, supports the **company's** operations. GCA Energy Limited operates from its headquarters in Lagos and has a branch office in Port Harcourt to ensure comprehensive service delivery across the Niger Delta sub-region.

## Unmatched Benefits for Our Clients: Our Strengths are Your Advantage

Throughout our journey, GCA Energy Limited has cultivated a suite of invaluable strengths that directly benefit our clients, setting us apart as a preferred partner in the industry. Our reputation as a strong and preferred brand reflects our consistent delivery of excellence and reliability. With a profound understanding of client systems, we are adept at creating solutions that perfectly align with your operational needs and challenges.

Furthermore, our robust financial base ensures stability and the capacity to support large-scale projects and investments, facilitating seamless service delivery. Collaboration is at our core, with seamless partnerships with alliance companies enhancing our capacity to offer comprehensive and integrated services.

Above all, our unwavering commitment to ethical business practices guides every decision we make, ensuring that our operations not only achieve excellence but also maintain integrity and respect for our clients, partners, and the environment. These strengths collectively form the bedrock of our offering to you, promising a partnership that brings real value and unwavering support in navigating the complexities of the Oil & Gas sector.

## Products and Services: A Class Apart

Our offerings reflect our capacity for excellence. From EPIC, Project Management, Technical & Maintenance Services, and Procurements, our portfolio is designed **to address our clients' myriad challenges, ensuring operational efficiency and compliance with statutory requirements.**

## Manufacturing Alliances: Ensuring Excellence

Renowned for service delivery, reliability, and quality control, we partner with only the leading manufacturers for our products and services. The Alliance partners include **Enerflex, PPC Mechanical Seals, TMC Compressors, PetrolValves, Rotork, Parsons Peebles, SPX Flow, HeliFuel, KELTON, Intra-Automation, Hydrasun, Intertek, TO Environmental, Wagtech Projects, Geveke Pompen, Eska Valve, Survival Craft Inspectorate, Cameron, Walworth, GE Electric Motors, Orion Valves, Bilco Engineering, VYMPPEL, Time Electronics, Danfoss, BME, Honeywell & Clyde Union Pumps and Celeros.**

## Scope of Services: Beyond Expectations
